

# Talk Thelema Coordinators

The vision of *Talk Thelema* is to make an impact on both Thelemites and non-Thelemites with the practical application of the Law of Thelema. To that end, we believe that the role of *Talk Thelema* is to challenge those who join us in ways that continue to change their lives – to grow in their own personal understanding and application of the Law of Thelema and to connect in a Thelemic community so that they may be encouraged and strengthened through the Law of Thelema and spread that Light into the world around them daily.

## Qualifications

We see some qualifications that should be considered. These are not a checklist but more of an internal examination and review of one's own motivations and aspirations.

- **Pursuing Personal Spiritual Growth.** A *Talk Thelema* coordinator must strive for an active and vibrant application of the Law of Thelema. A coordinator must be devoted to the daily disciplines of personal study of the Law and prayer. A coordinator must strive to live a life of integrity and authenticity.
- **Available and Committed.** A coordinator must have the available time and energy to foster an environment that inspires group members to explore and connect on their own level with the Law of Thelema.
- **Initiative.** A coordinator must take initiative in connecting with group members and seeking out opportunities to be available to individual members.
- **Teachable.** A coordinator must regularly attend the services or meetings of their sponsoring organization. A coordinator must embrace the core values of HeartFlame Ministries and, if any, their sponsoring organization. A coordinator must actively seek and engage in proper accountability with other coordinators.
- **Honest and Authentic.** A coordinator must be honest with himself or herself by

courageously facing the truth and, through their understanding of the Law of Thelema, intercepting potential challenges and pitfalls that might destroy a coordinator's integrity and coordinatorship.

## Responsibilities

In addition, small group coordinators:

- **Grow.** A coordinator cultivates individual and group study, and discussion to increase understanding of the Law of Thelema. A coordinator commits himself or herself to continuous growth in coordinator skills by attending coordinator trainings and debriefing meetings as offered by HeartFlame Ministries.
- **Connect.** Through a meeting (generally 1-2 hours) and connection one-on-one, a coordinator invests in eight to twelve individuals to inspire them to become fully invested in the Law of Thelema on a practical and individual level. A coordinator successfully integrates new members into the group. A coordinator maintains connection with, responsiveness to, and accountability with a staff member or, if requested, a mentor.
- **Serve.** A coordinator aids group members in discovering, developing, and employing their spiritual gifts. A coordinator cultivates in-group members a servant's heart by providing group serving opportunities. A coordinator equips one or more group members to step into small group coordinatorship.
- **Share.** A coordinator equips group members to be able to share their thoughts and the Law of Thelema with others. A coordinator cultivates in-group members a heart for the world around them.
- **Expand the Ministry.** A coordinator is committed to expand *Talk Thelema* by training future coordinators and growing new groups in the local area.
